## Indigenous Strategic Planning

Banff Centre for Arts and Creativity, Banff, AB

Happy New Year! This is my first Newsletter to develop and write a piece as Corporate Strategic Manager. I started my new position on November 13, 2017. I have been learning further in depth of the Strategic Plans and the ISO 9001:2015 Certification process and implementation.

On the week of December 10-15, 2017, Ms. Holly Danyluk, CEO-TDC, and I attended an Indigenous Strategic Planning certification program at Banff Centre for Arts and Creativity in Banff, Alberta. The program helps Indigenous leaders gain a fuller understanding of how to establish a strategic direction for their communities and organizations, to implement that plan through focused effort, and to measure performance. It was an intense week of learning through various approaches: Strategic Planning Development Lectures/Exercises, Strategic Planning Business Case, Drum Building, Innovation and Communications (Dialog & Exercises), and Outdoor Strategic Session. The goals were to provide elegant and practical tools to create realizable plans, engage our creative minds, reaffirm our Indigenous knowledge, and build our planning confidence. The Program encourages individuals to share and participate in the discussions, keeping in mind the 7 *Grandfather Teachings* of Love, Respect, Humility, Courage, Wisdom, Honesty, and Truth.

Both Holly and I received a certificate of acknowledgement to have demonstrated an ongoing learning by participating in the Indigenous Strategic Planning program. Being surrounded by both men and women from all occupations - Lawyers, Chiefs, Council Members/Representatives, Managers, Community Service Workers, Chief Executive Officers, etc. - was an amazing, worthwhile, and rewarding experience that made me feel inspired, supported, and confident in moving forward into this new journey.

## TDC-CHIEF EXECUTIVE OFFICER'S MESSAGE

First, I would like to wish a Happy New Year to all staff at Tawich and its subsidiaries and to all community members of Wemindji.

As some of you may be aware, I had been recently promoted to Chief Executive Officer of TDC in November and started my duties on November 13<sup>th</sup>, 2017. It has been a mere 6 weeks in this position, not including the holidays. So far, it is exciting, challenging and rewarding. I'd like to provide to you a glimpse of how the last 6 weeks has been for me in this new role. There is not a day that goes by that something needs attention, some that are scheduled and some are not. That is part of the job, and it is exciting!

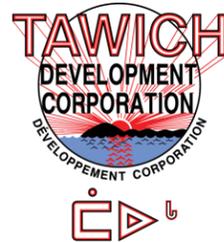

I have been learning about various files and understanding the dynamics of the organization and all its processes, etc. I had some idea on how everything worked, but I have been learning more in depth on managing the day-to-day operations of the organization. I can tell you for sure, that this is very rewarding. I had the opportunity to attend my first ever Business Exchange Conference in Val d'Or at the end of November which allowed me to gather valuable information and resources on various businesses within Abitibi and beyond and what opportunities we may have in the future for Tawich. In addition, I had the privilege of attending a one-week session with Judy at the Banff Centre for Arts and Creativity on Indigenous Strategic Planning, which provided us with various tools in an aboriginal perspective to help us in the development and management of our Strategic plans at Tawich.

Some projects I will be working on with the TDC team is to start the implementation of the ISO process from now until the end of the fiscal year and hope to gain certification before Goose break. I will also be providing support to the new Corporate Strategic Manager, Mrs. Judy Coon Come, in her new role and provide her with the tools to continue with the implementation of our Strategic Plan(s). As well, to continue the support for the Finance department, Tourism file and the Human Resources department in their Goals and Objectives, not to mention our Corporate Secretary who makes sure we follow up with mandates from the Board of Directors and keeps us moving as an organization. Most importantly, I have to work closely with the Board and follow up with various projects they assign to me.

Last, but not least, to continue the learning process, to get comfortable in my new role as CEO and to provide valuable time and energy to the projects and operations on a daily basis.

Meegwetch,

**Ms Holly Danyluk, B.Soc.Sc**  
CEO-TDC

## ANNUAL CHRISTMAS BANQUET

Our Annual Christmas Supper was held on Saturday, December 9<sup>th</sup>, at the Community Hall. This year, our theme was "Candy Cane Christmas" with the main colors being red & white. We had a total of around 225-250 employees and their guests attend the event which also includes the Board of Directors, the Chief & Council, and casual labor hired. This year, our main meal was catered by the staff at the Maquatua Inn Restaurant which was very delicious. Desserts (cookies, cupcakes, pies) were provided by our local bakery, and the cake was made by a local baker, Valerie Atsynia, who did an awesome job. Throughout the evening/night, we had door prizes and fun & games.

Every year, our list of employees grow which makes the event bigger and takes more planning. We try our best to accommodate everyone. This year, we decided to give turkeys to our employees as gifts of appreciation from our Community Store, instead of ordering items from external suppliers.

A special recognition took place for those employees who have worked hard throughout the year. All of them received a monetary award from their respective departments. The following were employees of the year:

- Holly Danyluk – Administration
- Jacqueline Moses – Finance
- David Swallow – Community Store
- Sharon Atsynia – Laundromat

- Gloria Georgekish—Maquatua Inn (Restaurant)

I would like to take this time to say thank you to Kerri-Ann Hughboy who is our lead planner of this event. She works very hard to make this successful; from planning the committee meetings to buying the prizes and even helping while the event is happening.

In closing, I would like to wish everyone a Happy New Year. May the New Year bring joy, peace & happiness to you and your family.

## TCI MANAGEMENT TEAM'S MESSAGE

I hope everyone enjoyed their Christmas and we would like to wish all, a Happy New Year to community members, employees, family and friends.

We want to take this opportunity to acknowledge all those employees who keep the operations going during the holidays not only for Tawich Construction Inc., but for other businesses and companies as well. Without these individuals, it would be relatively hard for the rest of us to get by, and do last minute things before and during the holidays.

Since the end of October, we have had a great deal of snow and the crews on our road contracts have been relatively busy at Km 381, LG3, Wemindji Access rd., Eleonore Access rd, and the mine site. I must say they have done an excellence job trying to keep up with the unusual high snow loads.

We will be looking at conducting some training in the next couple of months for ASP construction safety, and First Aid for employees and youth. Over the last year, some of our employees have taken some RBQ training to licence TCI and if anyone is looking at starting a construction company, we can give you the contact information for the training institute.

Our ISO Quality Management System in presently in the process of being introducing to its employees. For those that are not familiar or do not know too much about ISO Quality Management, it is basically, something an organization does to help manage its processes and procedures. Here are some advantages: 1. reduce quality problems, 2. Increase cost savings & productivity, 3. enhance customer satisfaction, 4. create greater demand for product & services, 5. make business more competitive, and 6. make better decisions and improve employee morale.

Although winter may seem like a quiet time for TCI operations, this is the time of year where the crunch starts for the accounting department with respect to income taxes, T4's and year end as well as management planning, training and budgeting for the coming year.

Once again, Happy New Year, and keep focused on your New Year's Resolutions and keep progressing daily to continuously improve, and expand your knowledge.

Thank you for taking the time to read.

**The TCI Management Team**

## OPERATIONS MINE MANAGER'S MESSAGE

A fresh New Year is once again upon us. It is the time to be thankful for the blessings of the past year and to take stock of all our achievements. At the same time, New Year 2018 is a brand new year to start afresh, to start strong, and yet another chance to be everything we want to do this year.

When TCI/Goldcorp intend working collaboratively, we will likely interact more positively and engage in beneficial communication. In addition, will share and exchange information about their respective goals that leads to an improvement, in our mutual understanding of each other's business perspectives. The collaborating parties are more likely to expand the scope of their discussions even further. This open venue of communication will enable us to create more valuable agreement options, and as a result, this will enhance and improve their mutual trust and cooperation.

We believe by developing relationship's that are founded on a basis of trust, we can build agreements and long-term relationships that will benefit both sides Tawich Construction and Goldcorp by maximising opportunities for Tawich.

I would just like confirm, we are in the early stages of negotiating a 3-year contract for the welding service for the buckets at site (Eleonore), which the objective overall strategy will be based on providing the highest-quality workmanship possible to Goldcorp and continuing providing training and skills development for the capacity building for the Cree labor force. Some of these services we already identified and evaluated specific current contract opportunities for long-term Road & Site maintenance summer, winter and the rental manpower Muck Crew.

The sustainability of TCI for the benefit of our employees and shareholders is only achievable, if the company generates a fair profit. We strive towards this goal but always operating in accordance with our traditional values.
